The Monthly Post

Oshwal Academy
Nairobi & Mombasa

Head's Message

Connecting home and school makes us a great community of learners." I hope that all our students and their parents have enjoyed and rested well during the August holidays and are geared up for our new Academic Year Term 1/ 2022-2023.

Thank you, dear Parents and Caregivers, who have shared positive feedback about academics, events, and service. We truly feel happy for you referring us to many families for admissions. We shall keep striving to bring many

more opportunities to gather together and celebrate our learners and this blessed life.

We have had massive admission inquiries during this period. We thank all the new admission families for selecting the best school for their children. We look forward to a very good time and to forging strong partnerships with you as we support the children on their learning journey here at the Oshwal Academy Nairobi Nursery.

We believe our learners and their families are enjoying themselves well and spending the best time of their lives at school.

Mrs. Roama Mali
**Head of School
Nursery Campus**

OUR COMMITTEE

Every holiday period our dear committee members ensure to renovate and modernize our school premises, by having fresh paints, restructuring some areas and sharing with us the future development plans.

Below are just a few areas that we have emphasized and managed to change during the August 2022 holidays.

What's new?

Reading books – For literacy purpose, the school has purchased some more reading books for our learners so as to sharpen their literature skills at a younger age.

Toys (Scooties) bought for kids – School with no play makes it a dull environment. Our committee has facilitated us with new and more bicycles, tricycles, bikes and scooters. This will surely add joy in the outdoor biking area activities.

Puppet theatre – We now have a new puppet theatre where our learners will have more space to have a better experience of puppeteering and fun moments. You are welcome to visit us and have a school tour.

ICT LAB MODERNIZATION

This was the major makeover of the ICT lab with upgraded computers for our beloved learners. It is bigger, spacious, with better ventilation. It looks beautiful with the best tiles for the lab floor.

The tiles are hardwearing, largely slip-resistant, and extremely strong. Acoustic ceiling - mineral fiber boards enhance the look, and help in normalizing the room temperature with smart led lights for better illumination.

The ICT lab has now added comfort and will bring in additional child-friendly computers to facilitate activities.

HEALTH & HYGIENE

Fumigation and deep cleaning for good health and hygiene – This is an exercise that we regularly do before the school reopens so as to ensure that our learners & staff are in a healthy and clean environment.

General repairs and maintenance – For the safety of our learners any hazard is always looked at and repairs are done swiftly. Tables, desks, boards, etc. are always repaired to keep our learners & staff in safe environments

TEAM BUILDING

Our teaching team is back from the long holiday they had; having well rested they will bring in new schemes and planning to benefit the learners.

As much as they are ready for the new session, Oshwal Academy Nairobi planned a team-building event to raise their morale and motivation.

Spending quality time together as a family is one of the most important things that you can do for your staff. Our team is prepared for the First day of school for existing and new admissions.

HAPPY BACK TO SCHOOL

The new academic year has officially begun. After a quiet holiday break, our campus is now bustling with motivated students and teachers ready to embark on brand-new learning journeys. The first day of school, where their formal education begins, is crucial in a child's life.

On Thursday, 1st September 2022 we scheduled a "WELCOME BACK TO SCHOOL." Children and staff were happy to meet each other and were enthusiastic to welcome many new admission children on Friday 2nd September 2022.

We believe all our families are looking forward to the new experiences we'll have at Oshwal Academy Nairobi Nursery and the pleasure we'll have together throughout this school year. The entire day went well as the students were completely engrossed by their class teachers.

The learners were involved in a variety of the first day at school

activities like card making, designing hats, painting, dancing, clicking selfies, and numerous outdoor activities. Following that, the P.T.A Members also organized a MAGIC SHOW for the school on Monday, 12th September 2022. Little ones were astounded to see the Mega Magic Star Kudroli Ganesh with his magic wand.

They were thrilled to witness a variety of magic tricks that seemed to challenge to beliefs. They were intrigued by the magic tricks and amused by them. The magician involved the kids in executing the tricks, giving them a hands-on learning experience. In particular, magic shows for kids are more entertaining when they participate.

He used familiar and natural materials to make the tricks realistic and interesting. Joyfully clapping their hands and jumping, our children waved to the Magician. The little champions of Oshwal Academy Nairobi Nursery gave the show an overall thumbs up.

OPEN DAY

The Open Day was held on Saturday, 3rd September 2022 from 10 am in the Nursery Campus. Ms. Rooma, Head of Nursery Campus, and Ms. Chepngetich Koech, Deputy Head introduced the school's Mission, Vision Committee Members, Academic Consultant, Coordinators, and the various teachers that help the school run smoothly.

The parents were also oriented about the development of personal attributes in children from a very young age. Then the parents were divided into various groups to be explained and shown by the respective year groups and the various programs that the kids undertake in the school.

The Open Day was important since the parents were able to see teaching and learning in action, learn about the curriculum, meet teachers, students, and other parents and lastly visualize their kids in the school.

UNIT OF WORK ENTRY POINT

The unit of work is introduced in a celebration known as the entry point. The main aim of this celebration is to find out what the children already know and what they would like to learn about. This enables the teacher to initiate and support personalized learning.

Preschool, Kindergarten, and Reception class entry point was celebrated in the second week of September 2022. To celebrate the theme "Health Living" at MPH2. Each stream had its way of celebrating with different activities.

The sessions were marked with a display of healthy food, costumes, and various activities in line with the unit of work.

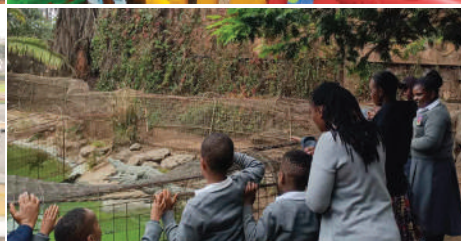

CURRICULUM ORIENTATION

Each Academic Year comes with progressive expectations in teaching and learning, every level being slightly more demanding than the previous one.

Curriculum Orientation for the year 2022-2023 was held virtually on Saturday, 10th September 2022 for Kindergarten and Reception classes and Saturday 17th September 2022 for Preschool and Playgroup Classes.

The program started with a welcome address by Ms. Rooma Mali the Nursery Campus Head. After the welcome Ms. Chepng'etich Koech, the Deputy Head oriented the parents about curriculum expectations for each year group.

After a thorough explanation of curriculum areas of learning and expectation, she handed it over to the year coordinator and teachers to shed more light on specific areas of learning.

EDUCATION FIELD TRIPS

Educational field trips play a major role in giving learners first-hand practical experience. This term learners were able to visit various places and explore the unit of work. Each class was divided into groups.

The Reception Class visited K.C.C Milk Company of Dandora on the 12th and 14th of September 2022. Kindergarten visited K.C.C Milk Company on 15th and 16th September 2022.

Preschool learners visited Jamhuri High School on 19th and 20th September for Shatabdi Mahotsav. IED Visited Mamba Village on 23rd September 2022.

The trips were educative and a great success. Learners were very excited and had a lot to share about their experiences.

EDUTAINMENT AND ADVENTURE

The fest that Oshwal Academy Nairobi Nursery arranged with the help of staff on Saturday, 24th September 2022 was a great success.

The best way to unwind from the normal routine of school is through outdoor sporting activities. It is also known as the student's break from academic work and routine. The Planetarium was an educational, intriguing, and eye-catching activity for the students, even though it wasn't a full academic break.

The learners and their parents explored interesting facts about Solar systems and Constellations. Moving further they also had Motorsports and Laser Tag Games provided equally exciting and active platforms on a weekend. We love watching learners develop life skills while experiencing such activities.

The school had also organized a few free carnival games in the green and beautiful school field for family fun. The families who visited us had a great time and found out how active our school is for all the children in Nairobi. We have just started the Academic Year with a bang and would still bring many interesting family events.

Individual Educational Program

IEP (Individual Educational Program) is developed by individual teams from different educational disciplines of the school. They sit with family members to discuss and formulate plans to encourage each learner's progress.

This allows us to meet the unique needs of every individual or learner. Our Inclusive Education Department held an IEP meeting from Monday, September 19th, 2022, to Friday, September 23rd, 2022, from 3:00 pm to 4:30 pm.

We also value the precious time and contributions of parents and believe that with the determination of teachers, students, and family members, the goals set will be achieved in time.

NAVRATRI

NAVRATRI DHAMAKA for the Year 2022 was on Tuesday, 27th September 2022 at K.D Hall, Oshwal Center. The word "NAVRATRI" means "NINE NIGHTS" in Sanskrit.

During this time, nine different forms of goddesses are worshipped. Our learners, parents, and staff performed Garba and Dandiya - the world-famous folk dances to mark the start of the auspicious religious occasion. The hall was elaborately decorated, and the shrine of Maa Durga placed at the center marked the significance of the occasion.

Learners and guests alike enjoyed a series of Garba songs and movements as they danced their hearts away.

FIRE DRILL

Schools conduct fire drills to make sure everyone learns how to leave as fast and safely as possible in the event of a fire, smoke, carbon monoxide, or other emergencies.

Second, to familiarize school occupants with the fire alarm sound. The methods for fire safety include crucial fire drills. By practicing in a fire, employees can respond swiftly, calmly, and safely.

The first fire drill for the academic year 2022/2023 was conducted on Wednesday 28th September 2022, at 9:30 am. The bell was activated at 9.30 am.

It rang continuously alerting the staff. All personnel and students came out calmly without any panic. They gathered at the fire assembly point (parking lot). It took 5 min 10 sec to evacuate the school. All was in order.

ACTIVITIES ON DAILY LIVING

Activities of daily living are the primary skills that each of us has to perform every day to self-care and maintenance to live independently at home or in the community.

They are divided into basic and instrumental activities of daily living or basic tasks that must be accomplished every day for an individual to thrive such as Personal Hygiene, Continence management, and Dressing to live every-day life.

The ability to accomplish essential activities of daily living may lead to safe conditions and better quality of life.

MINI MARATHON

Our learners' physical and mental well-being is promoted through physical education activities. It inspires them to achieve academic success.

Two of the most practical strategies to keep our students moving and healthy are walking and running. We wholeheartedly embrace it and take part in numerous activities based on it.

One of the major events on Friday, September 30, 2022, was a Mini-Marathon. Students of all streams participated worn P.E. uniforms. The decorations were stunning and on par with the actual Marathon programs.

Head's Message

A big welcome to all stakeholders to the New Academic year 2022-2023. Much as we teachers were waiting anxiously for this New Academic year, I must confess that Term 1 2022-2023 started with a bang. It was delightful to have our Early Morning Music Station once again playing the melodious music welcoming everyone back to school on 1st September 2022. It was exhilarating to see our learners back with their radiant smiles and laughter.

Our Reception learners and new admissions of year 1 settled in much faster than we expected. Every class teacher had a face-to-face meeting with the parents during The Meet and Greet

session that went on the 3rd and 10th of September 2022. This surely made the start of the year much easier for both parents and teachers in understanding each other. Our Assemblies took a fresh start as the year 2s and year 5s presented their thematic programs. Our learners are continuously coming up with newer ideas during assembly presentations and we appreciate them and the teachers for the efforts taken.

We were honored to start the year with a great magician from India; Kudroli Ganesh who presented an awesome magic show for our learners courtesy of our PTA members. All events and activities went on as per the schedule. I would like to thank all our teachers and parents for their support.

One of the best things that is happening this term is that, we have started with Remedial Lessons for year 6's on Saturdays. This is with an intention to give one on one attention to the learners who will benefit from the same. Once again Kudos to our teachers and parents for their support and cooperation.

We hope that we shall continue with the same gusto for the remaining part of the year. We wish all our stake holders the very best and happy festivities.

Mrs. Anjana Vijayan
**Head of School
Primary Campus**

First Day of School

We were indeed excited to have all our learners, staff, and teachers back to school from our long vacation rejuvenated to go through the teaching, learning, and co-curricular activities of term one.

School Assemblies

Our morning assemblies were very exciting to both learners and teachers. We had class presentations guided by outlined themes such as obedience, respect, courage, tolerance, integrity, and trust with an aim of instilling virtues in learners and teachers.

We also used our assemblies to award our learners in different categories as well as to introduce new students and staff.

Prefects Training

Primary prefects had the privilege of being taken through a training session on 3rd September 2022, to boost their leadership skills to be able to lead other students, solve students' conflicts and do arbitration when necessary. They really enjoyed the event.

Break time

Learners are once again enjoying their short break time as they munch on their snacks and try to catch up with their friends.

Inclusive Education Department Students Activities

Our IED students were taken through various activities during their learning process.

They engaged themselves in activities such as drama sessions, occupational therapy sessions as well as hand-eye coordination activities among others.

Hopscotch Activity

Learning through doing is one of the best ways to master skills learned. During one of the year one lessons, teachers took the learners through a Hopscotch Activity to reinforce concepts learned in the classroom.

Remedial Classes

It was a great opportunity for the teachers to work in small groups of pupils on Saturdays with the objective of helping them with areas of challenge in both Mathematics and English as a way of preparing them for the upcoming checkpoint examinations.

We request parents to be dedicated to this program and motivate learners enrolled to be regular.

Pramukh Swami Centennial celebrations

Year 2,3,4 and IED students had an educative, fun-filled, and awe-inspiring Hindu festival celebrating the life and work of Pramukh Swami Maharaj held at Jamhuri High School Nairobi.

Our learners had a great experience through the organized exhibitions, cultural programs, inspirational shows, and kids' zone during the celebrations.

Badminton Regional Games

The IED department represented our school at the Nairobi Region Special Olympics Badminton competitions at Oshwal Academy Nairobi Primary.

This event was hosted at the Primary Gym on 17th September 2022.

Meet & Greet

Meeet and Greet are an important event of any school. Parents had an opportunity to meet the new class teachers to familiarize themselves with each other, establish chains of communication, and discuss the school programs and expectations of the new class. Parents were very gratified by this event.

Abraacadabra.. Magic show!!

On Monday, 12th September 2022 Oshwal Academy Nairobi Primary, drowned in a pool of magic with a renowned Mega Magic Star Kudroli Ganesh.

Through the diverse skills portrayed in his world of magic, children seemed to steadily develop a flexible and curious mindset away from the weariness of a normal learning environment.

School Activities

We had a wide range of both paid and non-paid activities that kicked off very well. Our learners have been actively involved in all our activities and they have really enjoyed themselves and acquired the necessary skills every day.

Year 1 Library Day

Reading a book is always the best way of passing time. The library helps students as well as teachers to gather more knowledge about any particular subject.

Year 1 parents had an opportunity to go through library orientation with our librarian with a common objective to assist our learners to make good use of the library as a source of information and boost their reading skills.

Head's Message

I take this opportunity to welcome you all to our new Academic Year 2022/2023. Over the holidays, we received our IGCSE examination results from Cambridge and Edexcel examination bodies.

I am glad to inform you that we had the best results and a record number of candidates who made it to the merit award list. A total of 54 students who attained a minimum of seven A* and/or A in seven subjects out of nine subjects made it to the merit award list.

This, by no means, is a world-class performance and I would like to congratulate all students and staff

for the excellent work and excellent results. This month, we also hosted our Year 11 parents at a coffee morning discussion forum. This was the first time we organized such a forum.

From the feedback we got from Year 11 parents, the event was a success and as such we have planned such coffee morning for other year groups.

We also held a successful Annual School Day where students were awarded prizes and certificates for both academic and co-curricular successes in the academic year 2021/2022. The prize award ceremony was very successful. As we gear up to wrap up the

calendar year, I want to wish all our parents, students, and members of staff a very fulfilling term.

Mrs. Kekul Patel

**Head of School
Junior High Campus**

Karura Cross Country

As a matter of tradition, we organize cross country which is held at the famous Karura forest. Apart from being a way of exercising and keeping fit, it serves as a constant reminder to our students that we need to conserve and protect our environment.

Karura is well preserved and protected from potential land grabbers and illegal lumbering which would lead to deforestation. On the 5th of September, the entire Junior High fraternity suspended lessons to embark on this noble cause.

We all students arrived in school at 7:30 and years 7 - 9 as well as the Inclusive Education Department (IED) headed to Karura. As part of the requirements, our students needed to embrace the rules and regulations governing Karura forest, the key to which was to desist from carrying disposable bottles which would litter and degrade the environment.

The various groups were assigned different distances to cover. The

Students warm up before beginning the cross country guided by one of the teachers and Karura forest guide

race started with students from Year 8 and Year 9 who covered a distance of 8km. The students from the IED and those from Year 7 run 5km. which was the last race of the day.

Students from years 10 and 11 arrived at school at 7:30 a.m. and had fun activities during the morning session. They proceeded to Karura later to do their 8km and 10 km respectively.

The students who wished to cycle were allowed to bring their bicycles and rode around the designated routes. The event was quite peaceful and by 2 p.m. all students were back in school.

No unusual incidence was reported and we are all proud of our student's ability to take care of themselves and maintain a high standard of discipline.

The senior leadership addresses students at the assembly grounds just before departing for Karura cross country event

Students and staff catch up as they wait for all teams to arrive just before the beginning of the cross country

One of the debaters makes her argument on behalf of her house

Public Speaking Contest

The event was organized as an inter-house competition. In each case, there was the first phase dubbed Round 1, which pitted one house against another to determine the winner.

There are four houses: Flamingo, Impala, Gazelle and Simba. Two pairs of houses faced off during Round 1.

The winners from each pair then met and faced off in Round 2. The overall winner of round 2 carried the day.

COFFEE MORNING WITH YEAR 11 PARENTS

In a deliberate effort to strengthen the bond between parents and the school administration, we started hosting coffee mornings with parents of each year group, for the very first time this academic year. Students in the eleventh grade were the first to hold the coffee morning.

The school senior leadership, the career counselor, the psychology teacher, the homeroom tutors of all candidate classes, and the head of the year met the parents of Year 11 students on September 17th of September, this year. Many other teachers also attended to meet parents and address their concerns whenever it was necessary.

Parents and teachers keenly follow the proceedings at the coffee morning held on 17th September at the Multi-Purpose Hall of Junior High Campus

Students who represented Nairobi region in the IED Special Olympics receiving their hard-earned medals

A student from the IED is representing Nairobi region in the Bocce games at the Special Olympics

IED SPECIAL OLYMPICS

On the 10th of September 2022, our students from the Inclusive Education Department (IED) represented us in the Special Olympics Kenya Regional games, at the University of Nairobi grounds from 8:30 a.m. to 4:00 p.m. The games included Basketball, Athletics, Badminton, and Bocce.

Armaan Gupta represented the Nairobi region in the 50M race and Bocce division II while Nikhil Maru represented the region in Bocce division II only. Both Armaan and Nikhil were among the best in their respective areas and will proceed to the next level of the Special Olympics which will be held at Kasarani International Stadium between the 21st and 23rd of September 2022.

We are hopeful that they will qualify for the Special Olympics World Summer games which are scheduled for 17th -25th June 2023 in Berlin Germany.

ANNUAL SCHOOL DAY

As part of our tradition, every year we congregate to commemorate the Annual School Day, an event that is dedicated to recognizing, honoring, and celebrating the achievements of our students in both academics and extra-academic activities.

This year's event was scheduled for 24th September. The colorful ceremony was graced by the Oshwal Education and Relief Board chairman, Mr. Suhash Ratilal Shah who was the chief guest.

Students, parents and staff attending the annual school day proceedings at the Oshwal Centre on Saturday 24th September

Students' achievements were recognized across the board from year 7 all the way to our candidate class, with the culmination being the awarding of the best overall student for the academic year 2021/2022 – Urvi Saboo and the best top student in Kenya for the year 2020-2021 – Tirth Jigar.

Students are receiving their hard-earned awards

Urvi Saboo is receiving her award for the best overall IGCSE student for the academic year 2021/2022

The Chief guest and OERB chairman signs the visitors' book as the head girl and head boy look on towards the end of the annual school day ceremonies

White day and Bake Sale

Extra mile Kenya in conjunction with a section of our students did organize the White Day and Bake Sale, under the banner of health and disease, whose objective was to raise awareness about menstrual sanitation in Nairobi to empower girls' education.

To this end, on Monday 26th September, every student came to school dressed in white, pink, or red and made their contribution from as little as KES. 100 which was collected by the homeroom tutors and the heads of years.

Besides the contributions made by students, the Bake Sale was hosted in the multipurpose hall during the lunch break and after school. During this event, students sold cakes, pizza, sweets, and popcorn among others to their friends and teachers. The 'Bake Sale' was largely successful and a total of KES. 106,750 was realized. The Bake Sale formed part of our candidates' IGCSE Global Perspectives Course-work.

Students attend Monday assembly donned in white and pink to mark the White Day and demonstrate their solidarity with needy girls from humble background and create awareness

VISION STATEMENT: To be an International School of repute capable of making a positive difference in the lives of its students, parents, staff and society at large.

MISSION STATEMENT: Oshwal Academy Nairobi recognizes that every child is unique and has the potential to succeed in life. It shall strive to instil in students the spirit of compassion, team-work, leadership and ethical behaviour in a holistic, stimulating, challenging and a safe learning environment.

CORE VALUES: Trust | Integrity | Tolerance | Humility | Honour | Courtesy | Compassion

YEAR 12 NEW PARENTS' FORUM MEETING

The meeting was held on 8th September 2022 at the MPH with the aim to meet with the Year 12 parents together in order to familiarize themselves with the school programs and expectations. The meeting was graced with the academic consultant Mrs. Chotai and the SH campus Chair Mr. Javin.

The head of the school and other senior leadership team members took turns to highlight what programs the school offers both curricular and co-curricular.

PREFECTS TRAINING AND TEAM BUILDING CAMP AT BATIAN'S VIEW ED. CENTRE

The training took place between 9th and 11th September 2022 at Batian view educational Centre. A team of 27 prefects and 6 members of staff were present for the team building and training.

The prefects were trained on various issues e.g. interpersonal relationships, building trust and cooperating with other students, breaking barriers, team coordination and collaboration, communication and feedback. The team was back with renewed energy and the zeal to serve the school in their various capacities.

UK UNIVERSITY FAIR

Oshwal Academy Nairobi Senior High hosted the UK university fair at Oshwal Center on 16th September 2022. Forty four (44) universities participated in the fair and eight visiting schools had the opportunity to learn about university choices from the delegates.

The coordination of the Career advisor saw booth assistants, prefects and the Careers Committee do an excellent job by facilitating during the event.

ANNUAL SCHOOL DAY

The annual school day was held on 17th September 2022 at the Oshwal center. The occasion was graced by the presence of the O.E.R.B chairman, Mr Suhash Shah, vice chair Mr Mukesh Savla, Senior high campus committee chairman, Mr Jaivin Shah and other distinguished guests.

During the event, 12 BTEC students, 40 A Level students who scored a minimum of 3A grades, 26 AS Level students who scored a minimum of 4A grades, other students who scored 100% in their

individual subjects and many others who scored the highest in their respective subjects were awarded. Overall best students in A2, overall best AS student and best in non-academic activities were also awarded with gifts and certificates.

The Head of School, Mrs. Vibhanshu Sharma presented the School report highlighting the academic achievements that were complemented with co-curricular activities enabling holistic development of the students of the acclaimed institution. The event was streamed live.

ANNUAL INTER-HOUSE DEBATE (ROUND ONE)

This year's Oshwal Senior High Inter-House Debate took place last Wednesday 21st September 2022 during Clubs time.

Topaz debated against Emerald with Emerald emerging the winners while Ruby faced Sapphire with Ruby taking the day. All the participants put their best foot forward as they showcased their language articulation and prowess. Both the judges and the audience were amazed by the potential within our students.

The four houses will participate in the second and final round later in the term.

Tirth Thakker, from Oshwal Academy Nairobi, Senior High, giving his talk

Students from Oshwal Academy Nairobi, Senior High Listening to one of their opponents giving their talk

RHINO CUP CHALLENGE FIRST ROUND

The first round of the inter-school virtual Rhino Debating challenge, 2022 was held on 22nd September 2022 at Braeside School, Nairobi.

Oshwal Academy Nairobi, Senior High was competing against Braeside school.

The motion was: That online commercials should not target children. The proposers were Braeside school and opposers were Oshwal Academy, Senior High.

The team did an exemplary job and took the 1st position. We had external judges from Peponi school and Naisula Academy, who did an exemplary job.

BTEC NEW PARENTS FORUM

The meeting was held on 22nd September 2022 from 5.30pm and ended at 7pm. The Head of School, the BTEC coordinator and a representative from the SLT team made their presentations to highlight the requirements of the BTEC programmes at Senior High in relation to teaching, learning and registration of learners respectively.

At the end of the meeting, a question and answer session was done which allowed parents to seek for further understanding of the 4 BTEC programmes offered at Senior High.

BTEC ART AND ENTERPRISE VISIT TO ONE-OFF CONTEMPORARY ART GALLERY

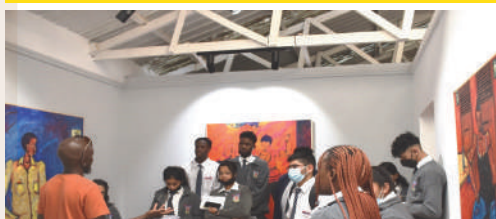

BTEC Art and Design together with Enterprise students visited Contemporary Art Gallery on 22nd September 2022. During the visit, the students enjoyed their assessments evidence collection from the one off Art Gallery.

The students had fun learning from a contemporary art learning space. The students were engaged by Curator Kui who gave the students a tour of the gallery and Artist Thom Ogonga.

This was exciting to the learners studying Art because they learnt how to set up their artwork prior to any exhibition set up.

@oshwalacademynairobi

seniorhigh@oshwalacademy.sc.ke
www.senior@oshwalacademy.sc.ke

Hello IEYC!

It is the start of a new academic term and we are all excited for our learners. They are looking forward to awesome learning experiences and activities including Entry and Exit points. To further enhance their learning, they will be participating in exciting educational trips.

We can't forget the upcoming OAM Pre-World Cup Football Fiesta 2022. Our learners will be celebrating with their favorite teams.

While Kindergarten marks an important transition, it is important that learners still get to be children.

Ms. Lilian Wabuti

Junior School

We are delighted to welcome all our learners to the academic year 2022 – 2023 with a sense of pride and excitement.

We are committed to ensuring that we provide our learners with a safe community for great learning, great teaching and great fun!

This academic year will be enthralling as we have a number of exciting activities that will keep our learners active, engaged and enthusiastic - clubs, assemblies, sports, trips, excursions and much more.

Professional Development for Teachers

The importance of continuous Professional Development for teachers cannot be overemphasized. Cognizant of this fact, the training sessions strive to empower teachers to employ new learning methodologies in class in order to maximize the full potential of every student in class.

As a custom, this academic year started off with a two-day training in two main areas, Pastoral Care and Teaching and Learning.

The Pastoral Professional Development dwelt on True Colour Personality Test which is aimed at assisting teachers to understand and connect with their learners while maximizing on achieving the best outcome possible.

The event was facilitated by Mrs. Aliya Fazal - Meghji of Uniserv and Mr. Karim. The training focused on Active Learning. Teachers also got more insights into substantive, second-order and threshold concepts as well as the theories behind Active Learning: Constructivism, Social constructivism and The Zone of Proximal Development.

Teachers were actively engaged in rigorous, fun-filled, thoroughly interactive and impactful sessions that have set the pace for this year's learning.

Saving the World: Entry Point - Vanishing Forest

This IPC unit gives learners a chance to learn about rainforests.

They are currently finding out where rainforests are in the world, how to plan and make their own tropical drink, how to create a rainforest scene, how different countries and organizations are helping save the rainforests, and about different plants and animals that live in the rainforest.

Oshwal Academy Mombasa Opening Day Gallery

International Literacy Day

This is another exhilarating event, where our learners go above and beyond expanding their knowledge and learning new vocabulary.

International Literacy Day takes place on September 8 every year to raise awareness and concern for literacy problems that exist within our own local communities as well as globally.

To commemorate the day, they participated in super fun activities such as, dressing up as their favorite characters, enacting various scenes, performing delightful plays, decrypting word games, decoding cryptic puzzles, and so on.

Parent Orientation Meetings

Parent Orientation Meeting is an annual event that gives parents and students a chance to learn more about their new schedules having transitioned to new classes.

It is also a platform to introduce the various tutors and class teachers the learners will be interacting with.

During the meetings parents also have the opportunity to ask questions.

Sports

We extend a warm welcome to all our returning learners (players) for another sporting year 2022/ 2023 and to the new learners joining us for the first time.

Just like in the previous terms, we look forward to offering a variety of sports activities to all our learners while providing safe, skilled, and fun sporting activities.

OAM will hold the Pre-World Cup Football Fiesta 2022 for all sections in the school- Kindergarten, Junior, and Senior School. This event comes after every four years and it brings with it color and excitement from all learners.

Internal Meets:

Our annual inter-house cricket, rounders, and basketball for both Junior and Senior School sections are set to kick off on the third week of September 2022.

Outdoor Activities:

The hills are calling once again, the Gold, Silver, and Bronze participants are preparing for their

adventurous journey to be held in mid-September 2022. The participants will ascend Mt. Longonot and Kijabe hills in their quest to conquer their Pre and Qualifying journey.

We will continue to follow all protocols necessary to ensure the safety of our learners/ players in both internal and external activities. Our large field, tennis/ basketball courts and the multipurpose hall are all ready to host our wide scope of competitions.

We look forward to a sporty and successful term!

CHESS RESULTS

Shubh Shah and Moses Bejon win the match against the Algerian African chess master.

Kenya Secondary Schools Sports Association Coast Region level championship and National

The OAM swim team comprising of eight swimmers participated in the Kenya Secondary Schools Sports Association Coast Region level championship.

All eight swimmers who represented the school qualified for the National level.

At the national level the team recorded the following results:

- Trevor Mwamisi 1st position 50 meters butterfly and 3rd position 50 meters freestyle (senior boys' category)
- Kreeshi Shavdia 1st position 50 meters backstroke (senior girls' category), 3rd position 100 meters open girls' category - butterfly and 2nd position 100 meters open girls' category - backstroke.
- Rushab Shah 1st position 50 meters backstroke (senior boys' category), 3rd position 4x50 meters open boys' category and 1st position in 100 meters open boys' backstroke.
- Trevor Mwamisi 3rd position boys' open category- 100meters freestyle
- Andrew Okoth 2nd position 50 meters breaststroke (boys' junior category)
- Deeya Shah 50 meters girls' senior category breaststroke.

Kenya Regional Music Festivals

Our students participated in the Kenya Regional Music Festivals held on the 11th of September 2022 and achieved the following results:

- Sarina Muravvej - Position 1
- Jabali Ondari -Position 1
- Sabrina Muravvej - Position 2
- Amara Doshi - Position 1
- Max Ndirangu - Position 2
- Amor Nalo- Position 4
- Alicia Ssali - Position 1
- Veer Sennik - Position 1

Congratulations to the team!

Year 3 Entry Point 'Travel & Tourism' Trip to the Airport

During their Entry Point, 'Travel & Tourism' our Year 3 learners learned about:

- Different types of journeys they can make, across land, sea, and air.
- How to be a responsible tourist.
- Places they can travel to from the local airport.

They visited the airport to further learn more about traveling and the necessary documents required to travel from the airport.

They also learned about the process of boarding the plane and met the pilots. They had so much fun learning and exploring the unit 'Travel & Tourism'.

Year 6 Trip to Alliance Francaise De Mombasa

Our Year 6 learners visited Alliance Francaise De Mombasa on Wednesday 28th.

It was an excellent opportunity for the learners to enhance their knowledge of the French language and learn about the French culture, the courses, and the services Alliance Francaise offers.

Entry Point 'Mindful Play'

Constructive play helps learners to focus all their senses on what they see, hear, smell, and touch. This unit explores the theme of independence as learners acquire a variety of skills. They are able to:

- Learn about their senses
- Learn how to move their bodies.
- Develop their imagination and creativity.
- Develop their Math skills during counting activities.
- Learn how to work as a team.
- Explore sensory and messy play activities.
- Explore the textures of different materials.

They are also empowered to develop the IEYC Personal Goals of:

- Adaptability
- Communication
- Cooperation
- Inquiry
- Morality
- Resilience
- Respect
- Thoughtfulness

KG 1 and 3 Assembly

Our Kindergarten learners celebrate different learning themes during their Friday morning assemblies. During the KG 1 assembly, the learners learned about the different parts of the body while in KG3 they learned about obedience and good morals.

Learning with Art!

Our learners enjoy experimenting with paints, play dough, clay, glue, and paper to draw basic figures and shapes. Such visual arts such as drawing, painting, and constructing are closely related to the learners' visual perception and cognitive processing hence, it plays a vital role in the early years.

Other than academic skills such as: speaking, reading, writing, and counting, Art enables learners to portray innovative and imaginative skills which later enables them to have the capacity to challenge and discover their talents.

Learners need opportunities and materials that give them creative experiences so that mastery in class takes place smoothly.

KG 1 Entry Point 'Mindful Play'

The IEYC unit 'Mindful Play' allows learners to think about what makes them happy and peaceful. During the unit the learners meditated and learnt about different breathing techniques, focusing on different body parts, such as ears, eyes, nose, hands, and mouth.

Mindful Play is about giving the learners the opportunity to listen to themselves, their environment, and other people.

They had a lot of fun participating in different yoga activities in class.

Play/Physical Education

Play allows learners to use their creativity while developing their imagination and physical, cognitive, and emotional strength.

It is an important part of learning since it improves the development of the brain. It also allows learners to create and explore their talents and acquire new skills.

LEARNING WITH LEGO

Inter-House Spelling Bee Year 1, 2, 3, 4, 5 and 6

Our Inter-House Spelling Bee not only provides a valuable educational experience for learners but also allows them to engage in healthy competition. Learners are able to:

- Learn Grammar.
- Enhance their vocabulary.
- Compete against other houses; Ruby Topaz, Emerald, and Sapphire hence encouraging a healthy team spirit while challenging the learners to work harder.
- Improve their cognitive skills by allowing learners to develop a range of skills including the ability to handle pressure.
- Practice self-confidence.

During the activity, the learners represented different Houses in competing for the spelling championship title.

Year 2 Entry Point 'From A to B' at OAM

The Entry Point 'From A to B' gives our learners a chance to learn about transport and travel. They have been exploring different aspects of travel:

- How they travel to school.
- About different modes of transport in the past.
- How to make their own toys for travel.
- About the sounds different modes of transport make.
- How to cross the road safely.

To complement their learning, they participated in different activities demonstrating movement from different points. They were required to use mats to constructively and creatively cross the 'river'. Next, the learners were required to move seamlessly through the obstacles placed in their way and sail safely to the other side of the 'river'. Both teams showcased good team spirit and engaged in various creative strategies to overcome the challenges of the task at hand.

Year 5 Assembly 'Coping Skills'

Our Year 5 learners held an interactive assembly where they educated their peers on coping skills. They explained it as a mechanism people often use in the face of stress and/or trauma to help manage painful or difficult emotions.

To illustrate it further, they recited a poem and made a presentation showcasing different strategies that their peers can use to overcome everyday challenges in school and at home.

Year 6 Entry Point 'Being Human'

As part of their IPC unit 'Being Human', the learners made models to demonstrate how the human heart works and what its main functions are.

They also included lots of scientific vocabulary in explaining the different attributes of fitness from a collection of photos they were given.

They were expected to give feedback on each photo citing if the character is fit or not and why they made the conclusion.

During PE, they explored heart rates before, during and after exercise. They later took part in an exciting activity related to the senses of hearing, smell and sight.

As part of the Knowledge Harvest they will be expected to draw and label diagrams of the human body. They are currently researching on the organs of the human body and what it takes to improve their health so that the organs can function better.

Gujarati Assembly Garba/Dandia

Our learners celebrate various cultures through themed assemblies such as Gujarati, Swahili, and many others by recognizing the various communities.

On this day, parents, students, and members of the staff celebrated Gujarati showcasing Hindu culture through various activities including sampling some key Hindu food, music, and dance, display of Hindu fashion and Hindu literature.

IMYC Entry Point 'Adaptability'

'Adaptability is demonstrated by the ability to cope, alter or change with new circumstances or environments.'

This term our Year 7 learners have been learning about the IMYC Big idea 'Adaptability'. During their entry point, the learners had to decipher how to complete an obstacle task in different scenarios.

The learners were given the task of wrapping newspapers around different items and in some scenarios, without using their hands.

Their tactic to complete the task would later be used to redefine and reimagine instances where they had to adapt.

Careers Department

OAM Careers department helps students to make the best career choices.

The department also hosts career consultants who guide the learners further by educating them about the opportunities available locally and abroad.

ICT Week

ICT has improved the lives of people everywhere through better health care, better environmental management, better communications, and better educational systems that transform the way students learn.

To commemorate the day our learners had the opportunity to explore Virtual Reality (VR) technology. They toured around the world virtually visiting different countries.

In their respective classes learners also used different technologies they had brought from home to learn.

PRIZE GIVING DAY

Year 11 to 13 Prize Giving Day

OAM held its Annual Prize Giving Event on Saturday 10th September. We wish to sincerely thank our esteemed management, The Oshwal Education & Relief Board (OERB), OERB Trustees, The OAM Managing Committee, and the entire OAM fraternity for making the day a huge success.

We wish to recognize the management for their outstanding support in making this and many more activities on the campus successful over the years.

OAM Outdoor Program

Kindergarten

Our Kindergarten section offers an exciting journey where the school is all about great teaching, and great fun! It is a special season in the lives of our young learners where they build their foundation and experience social, emotional, and cognitive growth.

All the activities are carefully planned out to encourage and initiate independence, curiosity, and self-confidence.

Below are a few delightful events lined up for our learners this term:

Assemblies

Over the course of the term, every Friday morning, each class presents a performance based on what they have learned. It is their shining moment!

New Students Orientation

At the beginning of every semester we look forward to welcoming new students to Oshwal College! On Wednesday 24th August 2022, we held an orientation session for the new students who have joined for the July 2022 semester.

The event is aimed at providing new students with a successful transition to Oshwal College by introducing them to our unique campus life. The event also provides an opportunity to highlight the college policies, rules, study requirements, facilities, academic and support services, and much more!

Welcome to the Centre of Academic Excellence!

College Principal, Mrs Jayashree Prathap, addressing the new students

A section of students during the orientation

Oshwal College Student Association President, Hussein Janowalla (centre), takes the oath of office

Students during the inauguration ceremony

Student Council Inauguration Ceremony

After a democratically conducted, free and fair election, the newly elected student leaders were on Wednesday 24th August 2022, inaugurated and took oath of office in the presence of College Senior Management Team and fellow students in an event dubbed "Oshwal College Investiture Ceremony 2022".

Speaking during the event, the College Principal, Mrs Jayashree Prathap, commended the elected leaders and urged them to work with diligence in championing the students' interests.

She also assured them of the management's commitment to support them in order to realize their goals and aspirations.

Congratulations on your well-deserved success in exams/course work

What next after O-Level/A-Level/BTEC Level 3 qualifications?

After success in your exams/course work at O-Level, A-Level or BTEC-Level 3, do not stop there! We highly encourage you to progress with your studies by joining A-level, degree programme, professional course or BTEC Level 4 qualification.

For those who may not progress to A-Level after their O-Level exams, Oshwal college has a wide range of options to facilitate their progression.

They can advance their studies by enrolling into any of the following UK professional courses offered at Oshwal College:

- Advancing Business Education (ABE)
- Association of Chartered Certified Accountants (ACCA)
- Pearson BTEC-IT
- Pearson BTEC -Business

Upon successful completion of

these professional courses, the student can enroll for a UK degree programme either locally at Oshwal College or in UK.

On the other hand, the holders of A-Level/BTEC Level 3 qualifications have the following progression options:

- Direct entry into the UK degree at Oshwal College offered in collaboration with University of Hertfordshire (For Business students only)
- Entry into the UK degree at Oshwal College offered in collaboration with University of Greenwich through the Professional route (For IT/Computer Science students)
- Entry into a UK Professional qualification in Accounting and Finance/Business/ICT

Upon successful completion of the degree program, students have guaranteed placement to the respective UK university master's degree program at a discounted fee.

While the degree provides you with academic knowledge, employers prefer students with a degree and a professional qualification. Professional qualifications provide relevant practical skills and competencies which can be applied directly at the workplace.

With this in mind, we highly encourage the holders of A-Level, BTEC Level 3 qualifications and those pursuing degrees to consider setting themselves apart from the crowd by studying any of the below qualifications:

- Advancing Business Education (ABE)
- Association of Chartered Certified Accountants (ACCA)
- Pearson BTEC-IT (Levels 4 & 5)
- Pearson BTEC -Business (Levels 4 & 5)

Digital Literacy Certification courses

Our Digital Certification courses will enable you to excel in your higher education. These courses will help improve your analytical, report writing, research, and presentation skills which are required in your coursework. The digital literacy certification includes ICDL, MOS, Accounting packages, graphic design, Programming, and other latest ICT software packages.

We welcome you to Oshwal College and wish you all the best in your studies.

Oshwal College Culture & Awards Week (OCCAWE)

The 6th edition of Oshwal College Culture & Awards Week (OCCAWE) was held from 12th to 16th September 2022. The annual week-long event is a vibrant celebration of diversity among students, faculty and staff as well as an opportunity to recognize and reward excellence in extra-curricular activities, student leadership and cultural activities.

The event also aims at raising the level of awareness and tolerance of cultural differences within the campus as well as encouraging students' participation in out-of-class pursuits. Throughout the week, students, staff and invited high schoolers participated in numerous fun-filled activities which included dances, talent shows, indoor competitions, soccer tournaments and charity.

High School students display their certificates awarded for participating in the ICT competition organized by Oshwal College during the culture week

Students' Relay Competition at Oshwal Centre grounds during the culture week

The final day of the week was entertainment & awards day on Friday 16th September 2022 during which those who had excelled in different categories were awarded. At the same time, the ICDL and MOS 2022 subject toppers were also awarded.

Special thanks go to the organizing team led by Mr. Joel Wainaina-the Dean of Students, the College Management and Oshwal College Student Association (OCSA) leaders.
